

4. Installations and Equipment

Details of installations and equipment (dates of laying, servicing, recovery; exact locations and depth):

Fish samples by trawl from opportunistic sampling at locations along the cruise track. Catches of herring with incidental catches of Norway pout, haddock, whiting, saithe and cod. Sample requirements for herring are 500 fish per tow.

No requirements for numbers of other species catches are usually very small.

No full fish samples retained on board.

Water samples to calibrate surface thermosalinograph 2 water bottles per day

5. Geographical Areas

5.1 Indicate geographical areas in which the project is to be conducted (with reference in latitude and longitude):

The area is bounded by:-

58N and 62N

4W and 2E

5.2 Attach chart(s) at an appropriate scale showing the geographical areas of the intended work and, as far as practicable, the positions of intended stations, the tracks of survey lines, and the locations of installations and equipment.
