Chart, showing the survey tracks of all four participating vessels (Faroes, Iceland, Norway and EU (DK)) in the joint international ICES coordinated herring survey in April-May 2004, with the Faroese tracks as red lines in the Faroese area and southern part of the Norwegian Sea. The coordination of the surveys is within the ICES PGNAPES with the participation of five parties in 2005 (EU (DK), NO, RU, IC, FA).
