

3.4 Indicate whether harmful substances will be used:  
Drilling fluid (seawater) and mud (naturally occurring bentonite and sepiolite)

3.5 Indicate whether drilling will be carried out:  
Yes, see 2.1 above

3.6 Indicate whether explosives will be used:  
Explosives used only for pipe severing in the unusual circumstance that the pipe is stuck in the borehole.

4. Installations and Equipment

Details of installations and equipment (dates of laying, servicing, recovery; exact locations and depth):  
Borehole seafloor instrument; see appendix

5. Geographical Areas

5.1 Indicate geographical areas in which the project is to be conducted (with reference in latitude and longitude):  
See Table 1

5.2 Attach chart(s) at an appropriate scale (1 page, high-resolution) showing the geographical areas of the intended work and, as far as practicable, the positions of intended stations, the tracks of survey lines, and the locations of installations and equipment.
